

Healthcarepakistan

CONNECTING PATIENTS AND PRACTITIONERS

Growing healthcare needs and shortage of medical specialists have fueled high demand for telehealthcare. **HEALTHCAREPAKISTAN** provides solution to this problem. It is an easy to use practice management platform that keeps patients and practitioners connected for better and smarter healthcare. It maintains updated and secure Electronic Medical Records on the cloud, accessible anytime, any where. All the key process work flows from patient sign up, appointment management (on mobile apps), billing services and creation and management of health records are seamlessly integrated.

This makes it highly efficient, extremely interactive and cost-effective for all the participants. Free web presence and advertisement capability is provided to members of Healthcarepakistan.

Through a single sign-on we have enabled an integrated clinic and personal web presence on the health portal that allows healthcare providers to advertise their medical services to a huge local and global audience.

CORE FEATURES

One Account – Multiple clinics

Connect to multiple clinics from a single account. Create multiple schedules and manage your patients and appointments in all your clinics.
